

THEETHESHWARAN D

Junior Full Stack Developer | MERN Stack Developer (React.js / Node.js)

Tamil Nadu, India | 9655733917 | theethesh3103@gmail.com | linkedin.com/in/theethesh-d-74a8173a9 | github.com/theethesh

PROFESSIONAL SUMMARY

Entry-level Full Stack / MERN Developer with 6 months of hands-on internship experience building and deploying React.js web applications with Node.js and Express.js backends. Skilled in REST API development and integration, SQL/NoSQL database integration (MongoDB, MySQL), third-party API integration, JWT authentication, and responsive UI development. Experienced in testing, debugging, and troubleshooting across the stack, with exposure to performance optimization and deployment/production support on Vercel and Render. Git/GitHub proficient; seeking a Junior Full Stack Developer role to apply and grow these skills.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Redux/Redux Toolkit, React Hooks, React Router, Responsive Web Design, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST API Design & Development, MVC Architecture, Middleware, CRUD Operations

Databases: MongoDB, Mongoose (NoSQL), MySQL, SQL (Schema Design)

API & Integration: REST API Integration, Third-Party API Integration, JWT Authentication, RBAC, Axios, Postman

Tools & Deployment: Git, GitHub, Vercel, Render, Web Hosting & Deployment, VS Code, Vite

Practices: Testing & Debugging, Troubleshooting, Performance Optimization, Agile Development, Production Support

PROFESSIONAL EXPERIENCE

MERN Stack Developer Intern — WHY Global Services

6 Months

- Developed responsive **React.js** web application features and reusable UI components, using React Hooks and **Redux** for state management within an Agile team.
- Built and integrated **REST APIs** with **Node.js** and **Express.js** following MVC architecture, enabling reliable client-server communication.
- Integrated **SQL/NoSQL databases** by designing **MongoDB/Mongoose** schemas and performing CRUD operations for application data.
- Implemented **third-party API integration** and connected frontend to backend using **Axios**; validated endpoints with **Postman**.
- Implemented **JWT authentication** and role-based access control (RBAC) to secure API routes and protect user sessions.
- Performed **testing, debugging, and troubleshooting** across the stack, and contributed to **performance optimization** of components and API responses.
- Collaborated using **Git/GitHub** for version control and code reviews; supported **deployment** and production-ready builds on **Vercel** and **Render**.

PROJECT — FULL-STACK E-COMMERCE WEB APPLICATION

Next.js | React.js | Redux | Node.js | Express.js | MongoDB | JWT | REST APIs | Axios | Postman | Git/GitHub | Vercel | Render

- Built a responsive **React.js/Next.js** frontend and a **Node.js/Express.js** REST API backend for a full e-commerce platform with product, cart, and order management.
- Designed and integrated REST APIs with **MongoDB/Mongoose**, supporting full CRUD functionality, plus **Razorpay third-party API integration** for payments (COD, UPI, Card).
- Implemented JWT-based authentication with RBAC to separate Admin and User access; built an admin dashboard alongside the customer storefront.
- Debugged and tested API endpoints with **Postman**, optimized frontend performance, and deployed the application using **Vercel** and **Render** with Git/GitHub version control.

ADDITIONAL EXPERIENCE

Production Department — PHA Pvt. Ltd.

2024 – 2025

- Worked in a deadline-driven production environment, building discipline, teamwork, and time-management skills applied to software delivery.

EDUCATION & CERTIFICATIONS

Education: Bachelor of Business Administration (BBA) — EGS Pillay Arts and Science College, Nagapattinam

Certifications: Full Stack Web Development; Python — Core Programming Concepts
